Complex Spine Symposium ^{Zürich} *Spinal Deformity*

On May 23rd, 2019, Balgrist University Hospital will hold its interdisciplinary Complex Spine Symposium. Several world-renowned leaders in spine surgery will present first-rate lectures and impart academic knowledge about this key element of the human body.

The program will begin with various presentations of the faculty covering selected challenges in evaluation, decision making and treatment concepts of complex deformities of the spine.

An interactive live-surgery will address technical challenges of scoliotic deformity surgery. The symposium will be completed by the presentation and interactive discussion of complex cases with the participants and the experts.

The Complex Spine Symposium is intended for specialized spine surgeons, general orthopaedic surgeons, and primary care providers. It will be held in English.
