

From Unicompartmental to Primary  
and Revision Knee Arthroplasty

# A Joint Journey

3<sup>rd</sup> September 2025 | 08:30 – 17:00

Johnson & Johnson AG  
Luzernstrasse 21  
4528 Zuchwil

## Course Overview

This course enhances practical skills in knee arthroplasty. In the unicompartmental module, participants will be introduced to the latest instrumentation and will have the opportunity to perform a cadaveric surgery. The primary knee session will concentrate on alignment strategies and prosthesis design while providing hands-on experience. In the revision arthroplasty module, participants will engage in theoretical discussions of knee revision cases, followed by practical applications in the cadaveric lab.

## Target Group

This course is aimed at experienced orthopedic specialists who are interested to expand their clinical expertise in knee arthroplasty.

## Learning Objectives

- Deepening the understanding of the surgical technique in unicompartmental knee arthroplasty.
- Performing primary total knee arthroplasty, considering specific causes of failure and complications.
- Discussing clinical cases and exploring various adjustment options for the treatment of complex knee revision situations.
